

Local Initiatives Support Corporation (LISC) seeks qualified candidates for a six-month internship position in its Lending Department.

Background

The Local Initiatives Support Corporation (LISC) is dedicated to helping community residents transform distressed neighborhoods into healthy and sustainable communities of choice and opportunity — good places to work, do business and raise children.

LISC mobilizes corporate, government and philanthropic support to provide local community development organizations with loans, grants and equity investments; local, statewide and national policy support; and technical and management assistance. Facilities funded by LISC include rental and for-sale housing; community facilities, such as charter schools and child care facilities; and community economic development, including supermarkets, office space, and retail projects.

Description

The Lending Intern will primarily support the work of the Senior Program Officer in the Lending Department at National LISC. Duties will include analyzing the financial statements of potential borrowers presented to Credit Committee as well as conducting financial and organizational reviews of existing borrowers to identify technical assistance needs.

This is a terrific opportunity for someone interested in community development to get hands-on experience working in the National office of a premier Community Development Financial Institution. Hours are flexible but we would like a commitment of 15-20 hours per week.

Qualifications and Skills

- Graduate students in the field of community development preferred;
- Strong financial and analytical skills;
- Strong computer skills, proficient use of Microsoft Excel spreadsheets;
- Good interpersonal skills and a team-player.

This is an unpaid internship.

For consideration, please forward a cover letter and resume to:
